

5 Port Spiegler Distribution Block
 OEM REPLACEMENT DISTRIBUTION BLOCK

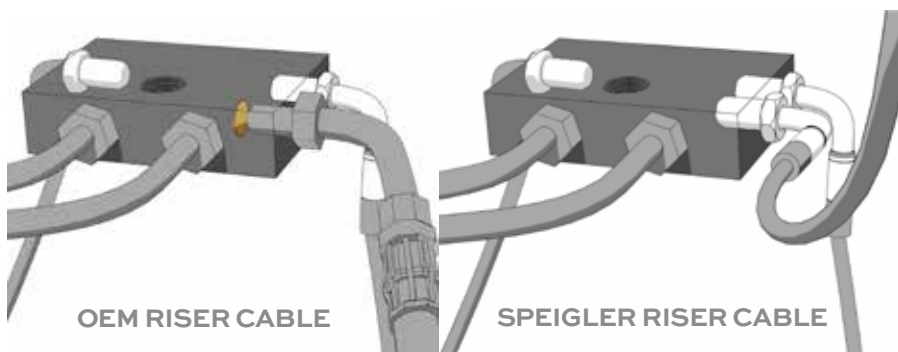

USE CASE:

This block allows the end user to extend their brake lines on the brake caliper side, allowing for radial brakes extended forks and overall customization

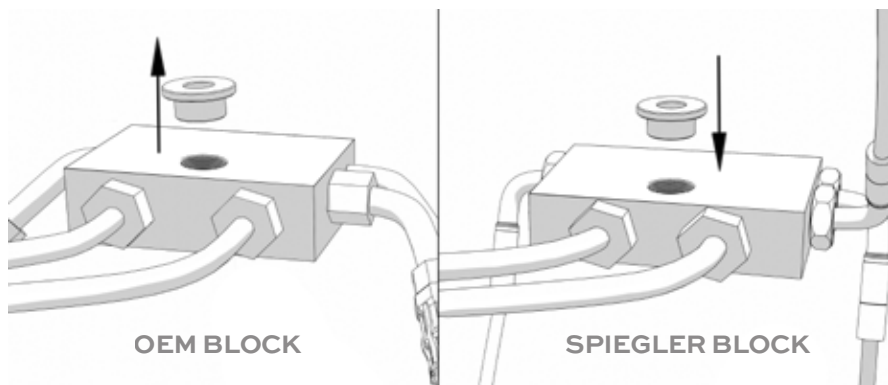

FITMENT:

- Lowrider S
- Lowrider ST
- Fat Bob

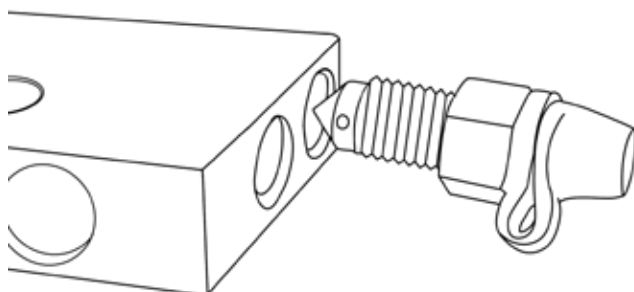

DIFFERENT REQUIREMENTS

- Factory riser cable needs supplied ferrule.
- Spiegler lines do not require a ferrule.

KEEP IN MIND:

Remove bushing from OEM bike distribution block for installation into Spiegler distribution block.

NOTE:

Plug bleeder is intended for **single disc bikes**.
 Remove if bike has twin discs.
