# KR MID BAR
## PRODUCT GUIDE

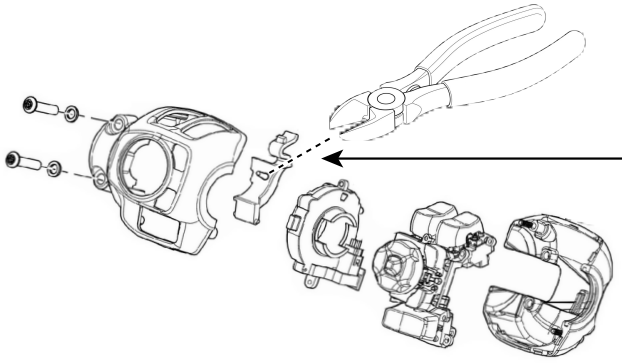

### Throttle By Wire (2023 & under Touring / 2024 and under Softail)

### 2025+ Softail / 2024+ HD Touring / 2023+ CVO

You will use the bolt as a “Set Screw” against the bar to lock the hand control in place.

**Installation Note:** To provide full rotational adjustability, the KR Mid Bar does not feature pre-drilled locking holes. To install your hand controls, you must either remove the plastic locking pin or modify the bracket so it sits flush against the bar.
